## 2.0 HOUSING LAND SUPPLY

2.1 The five year land supply comprises sites with planning permission (outline or full), sites with a resolution to grant planning permission subject to the signing of a section 106 agreement and sites allocated for housing in adopted development plans, categorised as prescribed in TAN 1.

2.2 The land supply has been calculated using the residual methodology, based on the % ODHQDX \* ZHQW & RXQW \ % RURXJK & RXQFLO¶V .

2.6 Blaenau Gwent LDP only covers part of the 5yr study period required, therefore Table 4 in Annex 3 of TAN 1 was used to give an estimate of the land required. The average annual requirement has been worked out in the calculation below and forms part of the 5 year land supply calculation in
